DETAIL ACTION

Election/Restriction

Application's election without traverse of Group I (Claims 1-5) drawn to a semiconductor device is acknowledged for prosecution in the subject application.

Accordingly, claims 6-16 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Applicants have the right to file a divisional application covering the subject matter of the non-elected claims.

1. This application is in condition for allowance except for the following formal matters:

The specification is objected to for the following reasons.

- The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed (see MPEP § 606.01).
- Typographical errors have been found in the specification (e.g., allowsfor, gateflash, NORarray, amemory, amanufacturing, includesa, structuresincludes, structureare, onthe, structuresrespectively, structuresincludes, betweeneach, someof, substrateto, aconcave, theconcave....). Correction is required.

A title such as –NAND Flash Memory Cell Row- is suggested.

- Certified copy of the priority document is missing. Please submit one.
- Since application's election of Group I drawn to a semiconductor device, a new abstract is required to that is clearly indicative of the invention to which the claims are directed.

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
